Hello RPMs,

9/28/06

I am writing you this email to request input on projected activities. Please let me know if you have any anticipated risk assessment activities (i.e. workload timelines, projected meetings or documents to be reviewed) in the month of September. I am giving a synopsis of my activities for each of the current sites that I have right now.

Currently

FOR TULSA FUELS and MANUFACTURING: I will be traveling 2nd week of October for a site visit. I will be reviewing the human health risk assessment for this site soon.

FOR GULFCO MARINE MAINTENANCE: I am reviewing surface water and sediment analyses. I will be reviewing the human health risk assessment for this site soon.

FOR R & H TROPICANA: I am helping with the work plan, i.e. approving surrogate chemicals for analysis. I will be reviewing the human health risk assessment for this site soon.

FOR CHINO MINES: I have finished reviewing Phase 1 Human Health Risk Assessment for Hanover and Whitewater Creeks Investigation Units. I am compiling my comments now. I will be traveling 3rd week of October for a site visit and to attend a community meeting.

OTHER WORK:

I am reviewing Tox-In-a-Box Risk Assessment Model for template for similar product in ecological risk assessment.

I am looking at various statistical packages for assistance in ecological toxicity program.

I have a bi-weekly Risk Assessors meeting for this branch on Wednesday afternoons.

I have a monthly RATs (Risk Assessors Teleconference) also on Wednesday afternoons.

I have a monthly Risk Assessors meeting with Don Williams to discuss projected activities for the current and future month.

I look forward to working more closely with all of you.

Regards,

Dipanjana
